OUR PRODUCTS

01 | HDPE LAMINATED ROLLS

Our HDPE Laminated Rolls are designed for high strength, flexibility, durability, and reliable performance in demanding applications. Laminated with UV-stabilized layers, they offer excellent water, sunlight, and weather resistance while remaining lightweight and easy to handle.

Available Width
6 ft to 14 ft
(1.8 Mtr to 4.3 Mtr)
& customized widths

GSM Range
70 to 500 GSM
with a variety of
color options

Applications
Industrial packaging, construction covers, temporary shelters, agricultural applications, and weatherproofing.

02 | HDPE TARPAULIN

Durable and lightweight multilayer HDPE Tarpaulin Sheets offering excellent strength, flexibility, waterproofing, and UV/weather resistance. Manufactured using advanced technology, they provide reliable protection in demanding outdoor conditions.

Ideal for
Goods covering, industrial packaging, temporary shelters, construction, agriculture, and ground protection.

Available in
Multiple strengths, specifications, and customized options.

OUR PRODUCTS

HDPE WOVEN POND LINING
(GEOMEMBRANE)

Our HDPE Woven Pond Liners, available in thicknesses ranging from 300 Microns to 1000 Microns, provide a durable, waterproof, and cost-effective solution for creating and maintaining water-retention ponds. Manufactured from high-strength, UV-stabilized HDPE tarpaulin, they offer excellent resistance to water, sunlight, weather conditions, abrasion, and wear, ensuring reliable performance and long service life.

Designed for easy installation and long-term performance, our pond liners help prevent water seepage and minimize water loss, making them ideal for fish farming, agricultural water storage, irrigation ponds, rainwater harvesting, and farm reservoirs.

Key Features: Waterproof & leak-resistant | UV stabilized | High strength & tear resistance | Flexible & easy to install | Suitable for long-term outdoor use.

Some applications

HDPE VERMIBED

Durable and lightweight HDPE Vermibeds designed for efficient vermicomposting of agricultural waste. Made from multilayer, UV-stabilized HDPE tarpaulin, they are waterproof, leakproof, and built for long-term outdoor use.

KEY FEATURES

- Excellent moisture retention
- Side ventilation for aeration
- Built-in Vermiwash outlet
- Easy setup and portability

IDEAL FOR

Organic waste management, vermicomposting, agriculture, nurseries, and commercial compost production.

HDPE TARPAULIN GROW BAGS

Durable, lightweight, and UV-stabilized HDPE Grow Bags designed for healthy plant growth in home gardens, nurseries, and urban farming.

KEY FEATURES

- Breathable fabric for healthy roots
- Effective water drainage
- UV resistance
- Sturdy handles for easy portability
- Foldable, space-saving design

Ideal for Home gardens | Nurseries | Urban farming

HDPE RELIEF TENTS

HDPE Relief Tents are lightweight, durable, waterproof, and easy-to-deploy shelters designed for a wide range of temporary and outdoor applications. Their portable construction makes them easy to assemble, dismantle, transport, and relocate, providing a practical solution when quick shelter is required.

- **Waterproof & weather resistant**
- **Lightweight & portable**
- **Easy to assemble & dismantle**
- **Durable for outdoor use**

APPLICATIONS INCLUDE:

- Disaster relief and emergency shelters
- Temporary accommodation and relief camps
- Agricultural storage and field shelters
- Protection of crops, livestock, and farm equipment
- Construction sites and worker shelters
- Outdoor events and temporary structures
- Warehouses and material storage

Built to withstand rain, sunlight, wind, and varying weather conditions,
HDPE Relief Tents offer a versatile and cost-effective shelter solution for both emergency and everyday applications.

TENT FOR SUGAR INDUSTRY & GENRAL PURPOSE

HIGH-PERFORMANCE POLYPROPYLENE (PP) WOVEN BAGS

Engineered for strength. Built for protection.

Our high-performance PP woven bags deliver ultimate durability, superior moisture barriers, and custom highDefinition branding to secure your products across every supply chain.

Superior Strength
High-tensile strength for heavy and demanding applications.

Moisture Protection
Keeps your products safe and dry.

UV Resistant
Withstands sunlight for longer outdoor use.

Easy Stacking
Maintains shape for efficient storage and transportation.

CUSTOM PRINTING & BRANDING

High-quality, custom printing options for clear and durable branding. Enhance your brand visibility with vibrant, long-lasting prints.

High-Definition Printing

Multiple Color Options

Customized Sizes & Designs

APPLICATIONS

Sugar Industry

Cement & Construction

Grains & Pulses

Agriculture & Fertilizers
